PROFESSIONAL PROFILE

Final-year Computer Engineering student at Universidad Politécnica de Madrid (UPM), with internship experience in Operational Technology (OT) Cybersecurity at Inetum and applied knowledge of tools such as Claroty and Nozomi Networks. Currently building AI agents and LLM-based automations for Spanish SMEs at Gia SL. Particularly interested in industrial cybersecurity, networking, and AI safety.

PROFESSIONAL EXPERIENCE

AI Solutions Developer – Gia SL

May 2026 – Present

- Build automations, AI agents and tailored AI solutions for Spanish SMEs
- Design and deploy LLM-based workflows that streamline operations across business verticals
- Translate client business needs into technical specifications and production-ready integrations

Cybersecurity Intern – Inetum

February 2026 – May 2026 · 4 months

- Returned to the OT Security team for a second, longer internship period
- Designed network architectures for industrial OT/ICS environments
- Implemented OT cybersecurity solutions using Claroty and Nozomi Networks

Cybersecurity Intern – Inetum

July 2025 – August 2025 · 2 months

- First internship period on the OT Security team
- Contributed to industrial network architectures and threat detection
- Supported ongoing OT cybersecurity projects for industrial clients

Sales Associate – Décimas and The North Face

2024 · 3 months

- Provided customer service and managed inventory in a sports retail environment

Founder – Streetwear Clothing Brand

2023 – Present

- Independently managed a streetwear clothing brand: product, branding, and sales
- Designed and executed social media and digital marketing strategies on Instagram and Meta Ads
- Built the brand's online presence using tools such as Shopify

Private Tutor – Mathematics, Physics, and English

2021 – Present · 4 years

- Developed teaching methodologies tailored to each student's pace and individual needs

EDUCATION

B.Sc. in Computer Engineering

Universidad Politécnica de Madrid (UPM)

2021 – Present

Academic Year in Florida, United States

2018 – 2019

High School Diploma – Sciences Track

Colegio Gredos San Diego, Las Rozas

2009 – 2021

TECHNICAL SKILLS

Programming Languages: C (basic), Java (basic)

Cybersecurity: OT/ICS Protocols, Claroty, Nozomi Networks, Cisco Packet Tracer

Tools and Software: CapCut, Adobe Photoshop, Adobe Illustrator

AI and LLMs: Advanced knowledge of large language models (LLMs) and AI agents

Web Development: Shopify, Meta Ads, basic web design

LANGUAGES

Spanish (Native) · English (C1/C2) · French (A2/B1)
